

AND THERE SHE WAS A SALMON ONCE WHO LILAC WAS IN FACT AND PURPLE AT TIMES AS MUCH HER INSTINCT BROUGHT HER TO LAY HER SMALL EGGS IN ALL THE QUANTITY THAT SHE SO INDUSTRIOUSLY PRODUCED THAT MOST OVERWORKED SHE FELT YET SOMETHING WAS TO BE ACCOMPLISHED AND SHE REALLY FELT SHE HAD TO CARRY ON AND PRODUCE AND LAY AROUND THESE SMALL EGGS WHICH NEVER INDEED GOT ANY CHANCE TO FERTILIZE AS MOST DELICIOUS THEY WERE AND MOST OF CREATURES NO MATTER IF ABOVE OR BELOW THE WATER MOST OF THEM REALLY SOUGHT THEM OUT AND LIKE HONEY THESE SMALL PILLS OF EGGS THEY WERE THAT NO ONE WAS VERY LIKELY TO SURVIVE IF NOT BY A REALLY MINIMUM IF NOT IMPOSSIBLE CHANCE AS THESE EGGS MOST FLORESCENT THEY WERE TO BE SEEN EVEN IN THE MOST TURBID OF WATERS BUT SHE THE SALMON KEPT LAYING AND LAYING AND ASCENDING AGAINST THE ROUGH SPOTS AND INSTINCTIVELY SEEKING THE MOST INTIMATE AND PROTECTED SPACES WHICH WERE INDEED THE MOST OBVIOUS FOR OUR GREEDY PREDATORS OF THESE DELICACIES WHICH THE SALMON SO GENEROUSLY DISTRIBUTED TO THE POINT THAT NO CREATURE NOT EVEN THE MOST BRUTAL NOW DARED EVEN ATTEMPT TO DISTURB HER IN HER LAYING AND TO THE CONTRARY THESE ALL OTHER CREATURES NOW SOUGHT HER OUT AND TRIED TO

FACILITATE THEIR ASCENSION AND IN A MASS FOLLOWED HER AND LIKE GOLD PICKERS THEY TOO PROCURED THEM A KIND OF ADDICTION TO THE POINT THAT NOW AMONG ALL THE FIGHTING THEY DID WITH ONE ANOTHER THERE WAS ONE AMONG THEM WHO PROPOSED TO RATIONALLY SUBDIVIDE THE AMOUNT OF EGGS AND MOST CIVICALLY DISTRIBUTE THEM AND TRY TO MAINTAIN OUR SALMON IN A MOST COMFORTABLE ENVIRONMENT AND PROVIDE THEM WHAT THEY REALLY NOW DESPERATELY WANTED AND SO IT WAS THAT OUR SALMON WAS TRANSFERRED AND KEPT IN A SMALLER POND WITH ALL THE OTHER CREATURES SETTLED AROUND AND VERY DEPENDENT TO THE DAILY PRODUCTION AND DISTRIBUTION OF THOSE GOOD EGGS WHICH INDEED WERE REALLY GOOD BUT AFTER A WHILE WITH THE STAGNATING WATER THAT OUR SALMON HAD NOW TO BE SUBMERGED INTO AFTER A WHILE EVEN THESE EGGS WERE STARTING TO APPEAL LESS AND LESS THE APPETITE OF OUR CREATURES WHO NOW STARTED TO ABANDON THE POND AND ULTIMATELY LEAVE OUR SALMON ALONE WITH HER EGGS WHICH NOW UNCONTAMINATED BY ANY PREDATOR THEY FINALLY HAD FOR THE FIRST TIME THE OPPORTUNITY TO GROW AND ULTIMATELY MATURE AND QUASI COMPLETELY POPULATE THE STAGNATING POND AND NOURISH FROM IT IN SO MUCH THAT PINK SALMONS THEY WERE NO MORE BUT GREEN AND SO MUCH PROLIFERATING THAT SOON LIKE

OVER BOILING THE POND FLOODED THEM OUT INTO THE SURROUNDINGS AND EVENTUALLY A FEW ONTO A STREAM OF WATER WHERE THEY COULD SURVIVE AND SPREAD THEIR EGGS MOST INFECTED EGGS AND CONTAMINATING EVEN ONLY BY PROXIMITY THEY WERE THAT NOW ALL OUR OTHER CREATURES WERE TO BE ALERTED ALL THE TIME TO WHERE THEY STEPPED AS LIKE MINES OF FATAL RADIOACTIVITY THE EGGS COULD INSTANTLY DEVELOP INTO A TUMOUR WHICH NOW MOST OF THE CREATURES WHETHER PREDATORS OR SIMPLY INNOCENT HERBIVORES WATERING THEIR THIRST ALMOST EVERYONE WERE NOW AFFECTED BY A DEFORMING KNOT GROWING FROM WHATEVER SPOT THEY CAME IN MOST CONTACT WITH SUCH GREEN SALMON EGGS WHICH NOW WERE AS OUR PINK SALMON LEFT FORGOTTEN IN THE POND KEPT PROLIFERATING A NEW AND WHAT WAS TO BE DONE BUT TO PREVENT HER THE INDIRECT SOURCE OF SUCH EPIDEMY TO STOP FECUNDATING YET THAT WAS MUCH OF AN ISSUE AS LIKE LAVA NOW THE GREEN SALMON KEPT FLOWING OUT OF THE PINK SALMON POND AND WHAT TO DO BUT TRY TO TAP IT AND MUCH THINKING WAS FOR THESE CREATURES TO BE APPLIED AND YET AGAIN THE ONLY SOLUTION SEEMED TO TAP IT FROM ABOVE AND WITH THIS THEY COULD DEPLOY THE STRONGEST AMONG THEM AND SURROUND THE MOUNTAINS AROUND THE POND AND FROM THERE GENERATE A GIANT AVALANCHE AND FINALLY

BURY ALL OF IT ALL AND SO THE PLAN WAS CARRIED OUT AND SO BIG THE AVALANCHE WAS YET ALL THESE LARGE STONES FALLING MADE ALL THE SALMONS FLY OFF AND EVEN OVER THE MOUNTAINS AND BEYOND PRECIPITATE INTO A COMPLETELY DIFFERENT REALM A REALM WHERE NATURE WAS INDEED NO MORE AND MUCH WAS THE CEMENTIFICATION THAT OUR MASS OF GREEN SALMONS LIKE A SUDDEN WAVE OF A QUAKE IMMEDIATELY FELL DEAD AND IN SUCH QUANTITY THAT NOW SOIL WAS NOW FOR THE FIRST TIME EVER PROVIDED TO THAT INORGANIC ENVIRONMENT AND SO FERTILE IT WAS THIS SOIL THAT EVEN THE FIRST PLANTS EVER STARTED GROWING AND GROWING WITH THE STEADY SUPPORT OF THE MANY SKYSCRAPERS WHICH WERE NOW TOTALLY OVERTAKEN LIKE BY PARASITES AND SO QUICK THE PLANTS OF SUCH SOIL GREW OVER THEM SO QUICK THEY EVEN BLOSSOMED INTO GREEN FLOWERS AND EVENTUALLY MATURED INTO FRUITS AND EVENTUALLY THESE FRUITS DEVELOPED BACK INTO SALMONS THAT KEPT PRECIPITATING AND KEPT DYING AND THUS MAKING EVEN MORE SOIL THAT KEPT GROWING INTO NEW PLANTS THAT KEPT TAKING OVER THE ENTIRE METROPOLIS AND SO THE CIRCLE KEPT UNTIL FINALLY A FIRST SALMON AFTER AGES OF THIS MASS SUICIDE A FIRST SALMON FINALLY FROM THAT HEIGHT A GREEN SALMON NOW FLOPPED HIS FLIPPERS AND FINALLY NOW A

SALMON WAS SEEN FLYING OVER THE CITY AND ESCAPING THE VICIOUS MURDER AND KEPT FLYING NOW EVEN OVER THE MOUNTAINS WHERE HIS STRONG WILD INSTINCT BROUGHT HIM BACK TO THE POND WHERE EVERYTHING HAD ORIGINATED AND THERE IN THE ABYSS OF THE AVALANCHE SHE WAS THE PINK MOTHER OF ALL SALMONS NOW MOST UNWILLING TO FECUNDATE ANY MORE EGGS IN SUCH A STATE OF CAPTIVITY BUT HE INDEED CAME TO THE RESCUE AND FREED HER TO MUCH LIGHTER AND CLEARER WATERS AND MUCH SHE WAS JUMPING FROM THE WATER TO THANK HIM AND MUCH HE CONSENTED THAT SOON ADULTERY WAS UNAVOIDABLE AND IN THIS LIMINAL SPACE OF AIR AND WATER THEY NOW SET THE SEEDS FOR THE UPCOMING NEW SPECIES OF SALMONS WHICH WERE UNDOUBTEDLY ORANGE A MOST VISIBLE ORANGE AND NEITHER WATER NOR AIR THEY CHOOSE AS THEIR HABITAT BUT ON THE VERY EARTH THEY NATURALLY OPTED TO BE CLOSE TO BOTH THEIR PARENTS YET AGAIN MOST VISIBLE AND RECOGNIZABLE BUT NOT THEIR EGGS WHICH MEDIOCRE THEY WERE AND MUCH NOW THEY WERE AND MUCH NOW THEY GOT SPREAD BUT NONE OF THEM REALLY SEEMED TO EVOLVE INTO ANYTHING AS THIS SPECIES OF ORANGE TERRESTRIAL SALMONS WERE INDEED PROLIFIC LIKE THE PINK AND GREEN COUNTERPART BUT COULD NOT INDEED REPRODUCE ITSELF AND SOON EXTINGUISHED YET THEIR

SEASONED EGGS HAD BEEN HIGHLY SOUGHT EVER SINCE AND ONCE OUR HUMANS FROM THE BURIED CITY HAD FINALLY MANAGED TO DEFEAT ONCE MORE THE FOREST OF THE BLUE SALMONS NOW MANY RUSHED IN SEARCH OF SUCH A FINE GOLD THE SEASONED EGGS OF THE ORANGE SALMONS AND A REALLY GOOD EXPEDIENT WAS FOUND AND SOON THE MOUNTAINS WERE PASTURED BY PIGS THAT WITH THEIR NOSE ALWAYS IN THE DIRT WERE THE EXCELLENT MEAN TO RETRIEVE SUCH DELICACIES THAT HAD NOW SO MUCH VALUE IN THE HUMAN MARKET AND THIS REALLY WORK AT FIRST BUT SOON THE ABUSED PIGS STARTED THEMSELVES TO APPRECIATE SUCH REFINEMENT AND BE MOST CRAZY AND UNCONTROLLED ABOUT IT WHEN THE SPRING CAME AND MUCH THEY ATE AND ATE AND HUMANS COULD NOT STOP THEM NOR PREVENT THEM TO GO WASTE SUCH TREASURE AND SO THE EGGS HUNTERS RETREATED BACK IN THE CITY TO EQUIP THEMSELVES AND SLAUGHTER THESE PIGS BUT WHEN THEY CAME BACK TO THE MOUNTAINS THEY WERE NOW ENORMOUS AND BECAME MUCH THREATEN TO THE POINT THAT NOW THE WHOLE ARMY WAS DEPLOYED TO GIVE AN END TO THEM BUT REALLY A NEEDLE COULD MAKE THEM EXPLODE AND SO WITH NO MUCH WASTE THEY WERE ALL INDEED EXPLODED AND TO WHAT SURPRISE WHEN OUT OF THEM THEY CAME MUCH OF THE SALMONS NOW PINK SALMONS AS THESE HUMANS HAD NEVER

SOUGHT NOR TRIED AND THAT INDEED WAS THE GREATEST DISCOVERY AND NOW MOST AUTOMATED IT BECAME THE PROCESS OF FECUNDATING PIGS WITH SALMON EGGS TILL THEY REALLY EXPLODED OUT NEW OF THESE DELICIOUS FISHES WHICH THESE HUMANS COULD NOT REALLY STOP EATING AS IN FACT NOT REALLY ANY HABITAT THESE FISHES HAD BUT THE BELLY OF THESE PIGS AND THAT OF OUR HUMANS TILL THEY CIVILIZED AND STOPPED FILLING PIGS TILL EXPLOSION AND MANAGED TO KEEP THEM ALIVE THESE HUMONGOUS MYRIAD OF PIGS WHICH WERE NOW USED TO FECUNDATE ALL THESE EGGS YET SOON THEY THE PIGS REALLY FELT AN IRRESISTIBLE ATTRACTION THEY COULD SENSE FROM HUMANS EATING SO MUCH OF THE FISH THAT NOW FOR GENERATIONS HAD FECUNDATED AND HUMANS TOO HAD NOW A SORT OF TENDENCY FOR THESE PIGS FECUNDATING THEIR BELOVED SALMONS THAT NOW EVEN PIGS WERE REDOMESTICATED AND LIVED WITH HUMANS AND WITH THEM SHARED THE JOY OF THIS FECUNDATING EGGS UNTIL THERE WERE NO MORE BUT AT THAT POINT NO LONGER THERE WAS EVEN A DISTINCTION BETWEEN PIGS AND HUMANS WHICH NOW MOST TOOK THE RESEMBLANCE OF A MOST PINK HYBRID THAT SO MUCH LOVED SALMONS THAT A FISH TALE WAS SET AND THIS IT BEGUN THE SPECIES OF SWINE MERMAIDS.
